

**Administrative Simplification  
Transaction Validation Rating Worksheet  
BPR - Electronic Processing of Corrections to Claims (5010v)**

**Health Plan:** \_\_\_\_\_ **Rating Awarded:** \_\_\_\_\_

**Date:** \_\_\_\_\_ **Facilitator:** \_\_\_\_\_

**Type of Claim that was Corrected: Institutional or Professional?** \_\_\_\_\_

For a Rating of 'Complete' - the following requirements must receive a score of 'Pass'

| Requirement                   |                                  | Pass/<br>Fail | Comment |
|-------------------------------|----------------------------------|---------------|---------|
| 1. Processing Timeframe       | Consistent with state guidelines |               |         |
| 2. 835 Formatting and Content | See below                        |               |         |

835 Formatting and Content (from the BPR)

If the processing of the corrected claim resulted in a take-back:

1. The reversal of the Initial Claim will be communicated by setting CLP02 = 22 along with the appropriate CAS segments to negate the original charge, payment and adjustment amounts
2. The processing of the Corrected Claim will be communicated by setting CLP02 = 1,2,3,19,20,21 according to how the claim is processed, along with the appropriate CAS segments

If the provider sent in a refund check, the refund will be reflected on the 835 by acknowledging receipt of the check in the PLB segment using offsetting adjustments, PLB03-1 codes 72 (Authorized Return) and WO (Overpayment Recovery).
